Applicant's arguments with respect to newly presented claims 67,69-74,76-80 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 67,69-74,76-80 are rejected under 35 U.S.C. 103(a) as being unpatentable over Han, et al(US 5,405,801) in view of Kato(JP2002222871A1). Han discloses forming a rugged polysilicon and forming epitaxial silicon on the rugged polysilicon (col. 8, lines 60-67). The layer 100 is a conductive layer on which the rugged polysilicon is formed(col. 9, lines 37-38 and Fig. 30). It can be seen in Fig. 26 that the epitaxial silicon 95 has a non-uniform thickness across the outer surface of the rugged polysilicon.

Han is silent with respect to the rugged polysilicon being hemispherical grain silicon.

Kato is relied upon only to show that the rugged polysilicon is another term for HSG, or hemispherical grain silicon(abstract).

It would have been obvious to one of ordinary skill in the art that the rugged polysilicon taught by Han is HSG because Kato taught that the rugged polysilicon is HSG.

Allowable Subject Matter

Claim1-8,10-15,17-23,24,25,27-30,32,33,35-39,41-66, are allowed.

Claims 68 and 75 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
